

THAI ACUPRESSURE

For Orthopedic Disorders

As instructed by the Wat Po School, Bangkok

A Step-By-Step Guide

by Noam Tyroler

TABLE OF CONTENTS

FOREWORD

By Professor Avshalom Mizrahi.....	1
By Physiotherapist Gilaad Holy-or.....	2
By Acupuncturist Eran Goldstein.....	3

PREFACE

By Noam Tyroler.....	4
----------------------	---

INTRODUCTION:

Traditional Thai medicine - history through the present.....	8
Symbols and language.....	10
Common techniques.....	11
The treatment session.....	12
How to use the book.....	13
Diagnosis.....	14
Is my treatment effective?.....	15
The secrets of an effective treatment.....	16
Trauma, overuse, or non-orthopedic pathologies.....	18
Acute, sub acute, and chronic conditions.....	19
Orthopedic pathologies.....	20

THAI ACUPRESSURE TREATMENT ROUTINES

Chapter 1 Headaches - Introduction	26
Routine – 1. “Two-sided headache”.....	30
Routine – 2. “One-sided headache with dry eyes and blurred vision (migraine)”.....	32
Routine – 3. “Tension headache”.....	34
Routine – 4. “Temporal headache”.....	36
Chapter 2 Face - Introduction	38
Routine – 5. “Mouth distortion” (Bell’s Palsy).....	42
Routine – 6. “Jaw pain” (TMJ).....	44
Chapter 3 Neck - Introduction	46
Routine – 7. “Sprained neck”.....	54
Routine – 8. “Stiff neck”.....	56
Routine – 9. “Neck pain while turning the head 1”.....	58
Routine – 10. “Neck pain while turning the head 2”.....	62
Chapter 4 Shoulder and shoulder blade - Introduction	64
Routine – 11. “Pain at the midpoint of the inner edge of the shoulder blade”.....	74
Routine – 12. “Pain at the lower third of the inner edge of the shoulder blade”.....	76

Routine – 13.	“Shoulder pain with additional pain while breathing”	78
Routine – 14.	“Pain next to the lower medial part of the shoulder blade with additional pain along the thoracic spine”	80
Routine – 15.	“Shoulder pain when raising the arm”	82
Routine – 16.	“Shoulder pain when bending the arm behind the back”	84
Chapter 5 Arm and hand - Introduction		86
Routine – 17.	“Weak arm”	92
Routine – 18.	“Heavy arm”	94
Routine – 19.	“Numb hand”	96
Routine – 20.	“Pains from the shoulder to the wrist”	98
Chapter 6 Elbow - Introduction		100
Routine – 21.	“Tennis elbow”	104
Routine – 22.	“Stiffness with pain when bending and straightening the arm”	106
Chapter 7 Wrist - Introduction		108
Routine – 23.	“Wrist pain at the little finger line”	114
Routine – 24.	“Wrist pain at the thumb line”	116
Routine – 25.	“Wrist pain at the middle finger line”	118
Routine – 26.	“Swollen wrist”	120
Chapter 8 Fingers - Introduction		122
Routine – 27.	“Sprained thumb”	126
Routine – 28.	“Sprained index finger”	128
Routine – 29.	“Sprained middle finger”	130
Routine – 30.	“Sprained ring finger”	132
Routine – 31.	“Sprained little finger”	134
Chapter 9 Back - Introduction		136
Routine – 32.	“Middle back pain”	142
Routine – 33.	“Lower, middle and upper back pain”	144
Routine – 34.	“Middle back pain with radiated pain to the back of the leg”	146
Chapter 10 Lower back - Introduction		148
Routine – 35.	“Lower back pain at the area of L-5 and S-1”	158
Routine – 36.	“Lower back pain at the lumbar vertebrae”	160
Routine – 37.	“Lower back pain with pain at the buttocks”	162
Routine – 38.	“Radiation of pain to the leg”	166
Routine – 39.	“Lower back pain when bowing face down”	170
Routine – 40.	“Lower back pain when turning up and arching backward”	174
Routine – 41.	“Lower back pain when twisting”	178
Chapter 11 Hip - Introduction		182
Routine – 42.	“Hip pain in flexion, abduction and outer rotation”	188
Routine – 43.	“Hip pain in flexion, adduction and inner rotation”	192

Chapter 12 Legs - Introduction	196
Routine – 44. “Heavy and weak leg”	200
Routine – 45. “Stiff calf muscle and hamstring”	202
Routine – 46. “Pain at the groin”	204
Routine – 47. “Pain at the inner thigh”	206
Chapter 13 Knees - Introduction	208
Routine – 48. “Outer knee pain”	214
Routine – 49. “Inner knee pain”	216
Routine – 50. “Stiff knee with pain when bending and straightening”	218
Chapter 14 Ankles - Introduction	222
Routine – 51. “Sprained outer ankle”	226
Routine – 52. “Sprained and swollen outer ankle”	228
Routine – 53. “Sprained inner ankle”	230
Chapter 15 Foot - Introduction	232
Routine – 54. “Pain at the sole of the foot while walking”	236
Routine – 55. “Stiff Achilles tendon”	238
Chapter 16 Toes - Introduction	240
Routine – 56. “Sprained big toe”	244
Routine – 57. “Sprained 2nd toe”	246
Routine – 58. “Sprained 3rd toe”	248
Routine – 59. “Sprained 4th toe”	250
Routine – 60. “Sprained little (5th) toe”	252

TRADITIONAL THAI ACUPRESSURE POINTS - THE ANATOMICAL ATLAS:

The anterior aspect of the body	255
Therapy points of the head and face - Topographical + musculoskeletal view	256
Therapy points of the head and face - Visual guide	258
Therapy points of the chest - Topographical + musculoskeletal view	260
Therapy points of the chest - Visual guide	262
Lines of the abdomen - Definitions + maps	264
Therapy points of the abdomen - Topographical + musculoskeletal view	266
Therapy points of the abdomen - Visual guide	268
Lines of the front leg - Definitions + maps	270
Therapy points of the front thigh - Topographical + musculoskeletal view	272
Therapy points of the front thigh - Visual guide	274
Therapy points of the front lower leg - Topographical + musculoskeletal view	276
Therapy points of the front lower leg - Visual guide	278
The arms and hands	281
Lines of the inner arm - Definitions + maps	282
Therapy points of the inner arm - Topographical + musculoskeletal view	284

Therapy points of the inner arm - Visual guide	286
Lines of the outer arm - Definitions + maps	288
Therapy points of the outer arm - Topographical + musculoskeletal view	290
Therapy points of the outer arm - Visual guide	292
Therapy points of the fingers - Topographical + musculoskeletal view	294
Therapy points of the fingers - Visual guide	296
The posterior aspect of the body	299
Lines of the back - Definitions + maps	300
Therapy points of the neck, upper back and middle back - Topographical + musculoskeletal view	302
Therapy points of the neck, upper back and middle back - Visual guide	304
Lines of the shoulder blades and posterior arm - Definitions + maps	306
Therapy points of the shoulder blades and posterior arm - Topographical + musculoskeletal view	308
Therapy points of the shoulder blades and posterior arm - Visual guide	310
Therapy points Of The lower back and hip - Topographical + musculoskeletal view	312
Therapy points of the lower back and hip - Visual guide	314
Lines of the back of the leg - Definitions + maps	316
Therapy points of the back of the leg - Topographical + musculoskeletal view	318
Therapy points of the back of the leg - Visual guide	320
The side of the hip and leg	323
Lines of the side of the leg and hip - Definitions + maps	324
Therapy points of the side of the thigh and hip - Topographical + musculoskeletal view	326
Therapy points of the side of the thigh and hip - Visual guide	328
Therapy points of the side of the lower leg - Topographical + musculoskeletal view	330
Therapy points of the side of the lower leg - Visual guide	332
The inner leg	335
Lines of the inner leg - Definitions + maps	336
Therapy points of the inner thigh - Topographical + musculoskeletal view	338
Therapy points of the inner thigh - Visual guide	340
Therapy points of the inner lower leg - Topographical + musculoskeletal view	342
Therapy points of the inner lower leg - Visual guide	344
The foot	347
Therapy points of the foot - Topographical + musculoskeletal view	348
Therapy points of the foot - Visual guide	350

THAI ACUPRESSURE

The medical branch of the Thai massage

This comprehensive guide includes:

- 60 Traditional medical formulas for the treatment of orthopedic pains
- An Anatomical Atlas that demonstrates the location of 230 acupressure points
- Over 200 diagrams and more than 800 photos

This book will guide you step-by-step

through the diagnosis and application of 60 simple, ready-made traditional routines used for the treatment of the most common orthopedic ailments such as:

- Headaches and facial disorders
- Neck, shoulder, arm, elbow, and wrist disorders
- Ankle, finger, and toe sprains
- Middle back, lower back, hip, leg, and knee disorders

This guide is made for you

if you are a practitioner of any of the following:

Thai massage, acupressure, physiotherapy, chiropractic, osteopathy, acupuncture, shiatsu, Tuina, Anma, reflexology, deep tissue massage, sport massage, and holistic/Swedish massage. This guide is also for you if you work as a personal trainer, a fitness room instructor, a Pilates trainer, or a Yoga instructor.

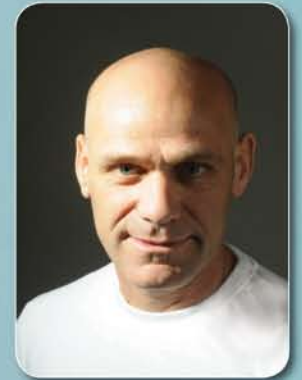

What is Thai acupressure?

It is an ancient Thai medical practice used to treat most human ailments by applying pressure on potent acupressure points and therapy lines. The practitioner uses his thumbs, hands, elbows, and knees to work on the energy channels and therapy points of his client's body. This book presents the basic teaching of Thai acupressure - the use of ready-made point combinations to treat orthopedic ailments. Each treatment routine is based on a set combination of points that treats a specific disorder. Thai acupressure is unknown among most westerners, even those that are familiar with Thai general massage. Unlike general Thai massage for the whole body, Thai medical acupressure routines are used to treat specific orthopedic pains. These are highly effective treatment routines that are also extremely simple to use.

NOAM TYROLER

has been practicing Thai massage and Thai acupressure since 1989.

He is the head of the Department for Thai Massage and Acupressure at the Reidman International College in Tel-Aviv – one of the largest schools of complementary medicine in the world.

This book is an important codification of ancient medical knowledge. It presents a simple, yet extremely effective approach to musculoskeletal pains. There are many good books on Thai general massage but no book on Thai acupressure. I strongly believe that this book can be a necessary foundation on which Thai acupressure would become a worldwide practice.

Professor Avshalom Mizrahi Academic Director - Reidman International College for Complementary Medicine

Every month, I treat several hundred clients, which equals several thousand treatments per year. This number allows me to view first-hand the effectiveness and genius of the Thai medical acupressure routines - an easily learned, grass-roots treatment doctrine, which until now has unfortunately rested solely in the hands of the few. It is my hope that this guide will circulate this important information among physiotherapists and others involved in manual therapies in all areas. These treatment routines comprise manual orthopedic treatments that allow one to utilize short, focused, and highly effective treatments under conditions of strict time constraints characteristic of the public health services.
